Introducing Asiasoft Multilingual Support for Windows 2000

Thank you, for your purchase of the Asiasoft Multilingual Support for Microsoft Windows 2000.

Asiasoft® Pashto & Dari Support

For Microsoft Windows 2000 Professional

Pashto & Dari Add-On to Windows 2000 enables Microsoft Windows 2000 and makes Microsoft Office 2000 and Office XP Pashto & Dari. Good news is that Asiasoft[™] Pashto & Dari Support for Windows 2000 is installable to any language version of Windows 2000.

Our Pashto & Dari support enables many Windows 2000 applications to type and process Pashto & Dari. You can type and process Pashto & Dari in Word; Excel; Access; PowerPoint and hundreds of other Windows 2000 and Unicode aware applications.

How it Works?

Install Asiasoft Pashto & Dari Support for Windows 2000, installation is automatic from a CD.

Run any supported application: For example Microsoft Word. 1- Shift from right to left paragraph, by clicking on the right to left Arrow at Word, Formatting toolbar. (see picture to the left) (Also it can be made default). If right to left arrow is not there remove your office and reinstall after Asiasoft Support is installed.

Select Pashto & Dari Font: (see picture on left) Asiatype™ Pashto & Dari Fonts from the Font Drop Down list (or Format/Font menu). We have many Pashto & Dari True type fonts, which are scaleable to any size.

Choose the Pashto & Dari Keyboard: (see picture to the right.) The Pashto & Dari keyboard is selectable from

Keyboard icon at lower right corner of Windows System Tray or by pressing Right Alt + Right Shift keys. To select English press Left Alt + Left-Shift.

Asiasoft Pashto & Dari soft keyboard layout work with your existing keyboard. In addition, Pashto & Dari keyboard overlays and stickers are purchasable from Asiasoft.
